

Browz Selected by Solutia to Advance ES&H Initiative

Draper, Utah / Monday, February 04, 2008—Browz LLC, a leading provider of supplier management and compliance systems, today announced that Solutia Inc. has chosen to use its patented software called Risk Application (RA) Portal. The Risk Application Portal will be available to Solutia and its contractors and suppliers around the clock, providing a clear view of how each supplier or contractor stands in relation to Solutia's stringent safety requirements.

By transferring responsibilities like data collection, management, and compliance to Browz, Solutia experts will find their time freed from the tasks of gathering and managing this information. Browz provides tools that reveal compliance, enabling its clients to shift their focus toward managing their contracts and contractors more effectively.

Engaging Browz is yet another step in Solutia's drive to keep its Environmental, Safety & Health Commitments, which are based on its strong convictions that continuous improvement in these areas is critical to creating value for all stakeholders.

[Browz LLC](#) helps buyers and suppliers exchange critical compliance information by using technology that leads to risk reductions, cost savings, and more secure business relationships. Both buyers and suppliers want to do business in a responsible manner and safe environment. The Browz solution levels the playing field for suppliers while protecting all participants.

[Solutia Inc.](#) uses world-class skills in applied chemistry to create value-added solutions for customers, whose products improve the lives of consumers every day. Solutia is a world leader in performance films for laminated safety glass and after-market applications; chemicals for the rubber industry; specialties such heat transfer fluids and aviation hydraulic fluid and an integrated family of nylon products including high-performance polymers and fibers.
